

ALEX SHARMA

QA / SOFTWARE TEST ENGINEER | 5 YEARS EXPERIENCE

Jaipur, Rajasthan, India | +91-XXXXXXXXXX | alex.sharma@email.com | LinkedIn: linkedin.com/in/alexsharma | GitHub: github.com/alexsharma

PROFESSIONAL SUMMARY

Software Test Engineer with 5 years of experience in manual and automation testing of web and API-based applications. Experienced in functional, regression, integration, system, smoke, sanity, exploratory, and end-to-end testing. Hands-on with Selenium WebDriver, Java, TestNG, REST API testing, Postman, SQL, Jira, Git, and CI/CD workflows. Strong understanding of SDLC, STLC, defect life cycle, Agile/Scrum, test case design, risk-based testing, and release validation. Skilled at collaborating with developers, product owners, and cross-functional teams to identify defects early and improve product quality.

CORE SKILLS

Testing	Functional Testing, Regression Testing, Integration Testing, System Testing, Smoke Testing, Sanity Testing, Exploratory Testing, UAT Support, End-to-End Testing
Automation	Selenium WebDriver, Java, TestNG, Page Object Model, Data-Driven Testing, Hybrid Frameworks, Maven
API & Database	REST API Testing, Postman, HTTP Methods, JSON, SQL, PostgreSQL/MySQL, Data Validation
Tools	Jira, Git, GitHub, Jenkins, Maven, Chrome DevTools
Process	SDLC, STLC, Agile/Scrum, Defect Life Cycle, Test Planning, Test Case Design, Root Cause Analysis

PROFESSIONAL EXPERIENCE

Senior QA / Software Test Engineer — ABC Technologies Pvt. Ltd. | Jan 2024 – Present

- Designed and executed functional, regression, integration, smoke, sanity, and end-to-end test scenarios for web applications.
- Built and maintained Selenium WebDriver automation suites using Java, TestNG, Maven, and Page Object Model.
- Created and executed REST API test collections in Postman; validated status codes, response payloads, headers, and business rules.
- Wrote SQL queries to validate application data and verify backend transactions across relational databases.
- Participated in sprint planning, backlog refinement, daily stand-ups, sprint reviews, and retrospectives in an Agile/Scrum environment.
- Logged, prioritized, tracked, and retested defects in Jira while working closely with developers to identify root causes.
- Integrated automated regression suites into CI/CD pipelines and supported release validation across test environments.
- Improved regression coverage and reduced repetitive manual testing effort through automation of high-value test scenarios.

QA / Software Test Engineer — XYZ Solutions Pvt. Ltd. | Jul 2021 – Dec 2023

- Analyzed business and technical requirements and created test scenarios, test cases, and traceability coverage.
- Performed functional, regression, integration, smoke, sanity, exploratory, and cross-browser testing for web applications.
- Developed Selenium automation scripts using Java and TestNG for critical regression workflows.
- Tested REST APIs using Postman and validated request/response behavior, authentication, error handling, and data consistency.
- Used SQL queries for backend validation, data comparison, and verification of application workflows.
- Reported defects with clear reproduction steps, expected/actual results, severity, priority, logs, and screenshots.
- Collaborated with developers and business stakeholders throughout the defect life cycle and release process.
- Supported production releases, sanity checks, and post-release verification.

PROJECTS

Enterprise Project Management Platform — Web Application

- Tested project, task, user-role, assignment, messaging, and workflow modules across frontend, backend APIs, and database layers.
- Created functional and regression suites covering positive, negative, boundary, authorization, and end-to-end scenarios.
- Automated critical user journeys with Selenium and validated REST APIs using Postman.
- Performed SQL-based validation to ensure UI actions correctly persisted data in the database.
- Managed defects and test execution using Jira and supported Agile sprint releases.

EDUCATION

Bachelor of Technology / Bachelor of Engineering — Computer Science or Information Technology | University Name | 2021

CERTIFICATIONS

ISTQB Certified Tester – Foundation Level (CTFL) | Add other relevant certifications if applicable

ADDITIONAL INFORMATION

Availability: Immediate / 30 Days (edit as applicable) | Work Authorization: India | Preferred Roles: QA Engineer, Software Test Engineer, Automation Test Engineer
